

Greetings Rebuilding Together Team Captains

We are selecting homes for our National Rebuilding Day April 28, 2012. We look forward to your willingness to give time and talent to help Senior and disabled citizens live in warmth, safety, and independence. We want you back!

This year, we would like to make a bigger impact on the homes we select. One way to accomplish this is to provide opportunities for teams to work together on a house. A team could focus on prep, cleanup or take a house and do all the work as in the past. If you had a good experience with the team you were paired with last year and would like to continue that experience, please let us know.

We are working to have the Team Registration Form and Bank Card form on our Rebuilding Together Omaha web page. Team Captains with more than 2 years of experience will have the choice to forgo the First Team Captain meeting scheduled for March 1.

In addition, we are working to schedule the contractors, plumbers, and electricians to complete their work in advance of your prep or repair work on the house.

Thank you for your past efforts and for considering to help us again!

Sincerely,

Steve Cinnamon  
Program Director
